

Mr. Akram Khalid of USA,

Assalam O Alaikum !

When people become blind and deaf then they can not see or raise their voice against an obvious "dajjal". And unfortunately you are one of them.

If you have a little sense of honour left in you then read the following very carefully and answer these questions with fear of Allah (if you still have some):

(1) How many offshore investments , real estate, Mortgage, stocks and bonds companies and thousands of acres of land in different corners of the earth and countless "banglas" on the name of his children and relatives left by Hazrat Imam Mehdi (as)??????? On his (as) death there were at least 250,000 Ahmadies . And lets say their donations annually was only ten (10) rupees per person on average per year and that will become at least 2,500,000 rupees per year income which was more than any Indians owned corporation's income in India at that time.

Just to remind you that when Hazrat Imam Mehdi (as) was taking his last ride on "Tanga" for some change and to get some relief from his sickness, he requested the driver of that "Tanga" that **I have only one rupee in my pocket therefore keep the trip short or according to this one rupee fare.**

And Hazrat Amma Jaan (second wife of Hazoor (as)) told his children that your father did not leave any property (i.e. **corporations inside India or offshore , bank balances or even land** and "**Bangalas**") for you. He donated everything to Anjuman and left some books and some of his believers behind.

(2) How many offshore investments , real estate, stocks and bonds companies and thousands of acres of land in different corners of the earth and countless "banglas" on the name of his children and relatives left by Hazrat Hakeem Noor Uddin (r)???????

Just to remind you again that his (r) wife asked him that now the time

is coming for the marriage of our older son and **we have nothing in our hands to even buy a ring of gold for the "manganai" (engagement)**. Wife of this *Rashid khalifa* asked him (as): Hakkem sahib, how we will marry our son **and reply of this man of God was that Allah Taala will make arrangements.**

He used to make mud with his own hands and feet to repair his totally mud made house even when he was khalifa and he never used resources or members of Jamaat to help him in his own or personal affairs.

(3) Hazrat Imam Mehdi (as) and his Rashid Khalifa Hakeem Noor uddin Sahib used to publish monthly report of "Bait Ul Maal" (finance department) with each and every cent (rupee, aana, della and pa). This monthly disclosure as per Hazrat Aqdas Imam Mehdi's (as) instructions was published each and every month till the death of Rashid Khalifa awwal (r). But from the very next month when Mian Bashir uddin Sahib became khalifa totally against the instructions of Hazoor (as) , this monthly report was **completely stopped** and since that time markaz never published this monthly report to show income, expenses, assets and liabilities of entire Jamaat at Markaz level.

Can you tell us why they stopped this critical work (like many others works) started by Hazrat Imam Mehdi (as) himself and instructed Jamaat to do this very important work of disclosure for all members????????

(4) Can you tell us the thousands of acres of land owned by Mian Bashir Uddin sahib and then owned by his family in Pakistan and around the globe , how this land and properties were bought??????

(5) Can you tell us , how, Mirza Bashir Uddin Sahib and his sons built more than 20 extremely high class "kothies" (luxury houses) for him and his children in Rabwah, Murri, Muzaffar Abad, different parts of Sindh, Punjab, etc., etc.

What were the sources to finance these properties????? We all know that hardly any of his child worked and earned significant income from any employer or his own businesses. **And we also know that his father Hazrat Imam Mehdi (as) left nothing for them as property in India or elsewhere.** And all the personal properties like land and other real estate (other than Jamaat offices) was transferred to his son Mirza Waseem Ahmad sahib who was instructed by his father to stay in

Qadian, India and entire property was still belonged to the family.

(6) Can you also tell us when Jamaat Ahmadiyya is registered and recognized as a non-profit and charitable organization world wide and it can hold all kind of assets used for charity purposes and there is no objections from any government to do charitable work then why these so called khulfa needed to form close to 35 companies offshore and other companies and making it secret and appointing their relatives as directors and share holders of these companies which are involved in investments, mortgages, real estate, stocks and securities and countless other money hiding business.

(7) Were Rashid Khulfa of Aanhazrat (sw) also (nauzubillah) used to hide properties and funds of Islam in some undisclosed corporations, businesses or other activities??????

These are less than 1% of "dajjalily activities" of your so called khulfa and their family members. There are countless others but I do not have time to present all black deeds to you this time.

We all know that all expenses of Jalsa, building mosques and all maintenance are paid by local Jamaat and not by Markaz then why they need to hide these millions of dollars of funds in different countries in some offshore companies.

Please answer all above questions before you can advise us or asking us to come back to this dajjal.

Sharm tum ko maghar aati nahi

Many more frauds and misuse of funds will be discovered soon by Promised Maseh (as) and his Jamaat, Insha Allah Taala ! And people will see what these so called "Nizaamis and Khilafities" did with you and your innocent children.

And kindly do not say that it is not true and it is "Maulvies or Lahories created Fitna" (as your Nizaam and so called khulfa used to say to keep you calm). These above companies are confirmed not only by Non-Ahmadis but these were also investigated by our own Jamaat members and all information was collected directly from Panama Government by paying Government fees. We have even names of directors and shareholders of these companies and soon will be released. And many of you will be shocked because many "muttaqis" in your eyes will be proven criminals as prophecy (the words of Allah Taala) of Feb. 20, 1886 says that these "Mujrameen" (criminals) will be disclosed. Insha Allah Taala !

May Allah guide you and people like you. Aamin !

**Wassalam,
Syed Maulood Ahmed**
